

Angels and Visions is an inspiring collection of testimonies, historical research and scriptural references combined into a single publication for today's Christian. In numerous documented cases throughout history and today we find that God's helpers, His angels, are all around present, and He uses them to help or support us, depending on what His Will is. In our daily life we sometimes hear or read about people who have had encounters with Angels. From the earliest times some of these stories were documented that testify that in times of great stress, crisis or trauma a person was sometimes visited by an angelic being. In Angels and Visions you will find out more about who these beings are, why they were made by God and why He uses them as "messengers". This is not a book about ways to worship angels or to call them when you need them, which, incidentally, isn't possible, but rather a book of hope and enlightenment, of understanding what we can't see. Here you will find stories about angels providing heat in the snow, of what can happen when you stand in the Presence of the Almighty. You'll discover what eternity is as well as what it will mean to be eternally damned. You will read a shocking prediction for the world we live in as well as a prediction of the time of Christ's Second Coming. You will find out just how patient God is and that He is determined to save each of His children. This book will give you hope when you discover just how great God's love for us is.
